

Important legal information regarding Morningstar equity analyses (stock reports)

Author and distributor of the equity analyses

The equity analyses (stock reports) are authored by Morningstar Inc. or one of its subsidiaries and distributed by companies in the VP Bank Group. The equity analyses do not constitute an offer or a solicitation to buy or sell the equity securities concerned. The recommendations, estimates and statements contained in the analyses reflect the personal opinion of the respective analyst of Morningstar Inc. or one of its subsidiaries as per the date of the analysis and may be changed at any time without prior notice. The analyses are based exclusively on publicly available information and data that are regarded as reliable. The equity analyses and the assessments and evaluations contained therein are prepared with the utmost care, but no assurance or guarantee can be given of their accuracy, completeness or precision. In particular, it is possible that the information contained in the analyses does not include all the relevant information pertaining to the equity securities or their issuers.

It is possible that VP Bank Ltd and/or its subsidiaries have published or distributed in the past or will publish or distribute in the future analyses that contain information or opinions that do not accord with this equity analysis. VP Bank Ltd and/or its subsidiaries are not obliged to provide recipients of this analysis with such analyses offering different information or opinions.

Not investment advice

This equity analysis does not constitute investment advice and does not take account of the needs of the individual recipients. Equity securities mentioned in the analysis may therefore be unsuitable for the recipient on the basis of his/her investment objectives, time horizon, risk tolerance, financial situation or other personal circumstances or because of sales restrictions applying to a particular equity security. For this reason the equity analyses should on no account be regarded as a substitute for individual advice by a client advisor or as a substitute for perusal of the documents made available by the issuers and distributors of the financial instruments (e.g. issue prospectuses, term sheets).

VP Bank Ltd and its subsidiaries expressly refuse to accept any liability for any detriment or loss allegedly incurred as a result of the information contained in the equity analyses.

Notes on risk

The price and value of the equity securities mentioned in the equity analyses and the returns achieved thereon may rise or fall. Equities denominated in foreign currencies are additionally exposed to exchange rate fluctuations. No assurance can be given to investors that they will recover the amounts that they invest. The past performance of an equity investment is not a reliable indicator of future performance. The same remarks apply to performance forecasts. Commissions and costs have a detrimental effect on performance. Any equity security mentioned in the equity analyses may involve the following risks (this list should not be regarded as exhaustive): issuer (creditworthiness) risk, market risk, credit risk, liquidity risk, interest rate risk, currency risk, economic risk and political risk. Investments in emerging markets are speculative and particularly strongly exposed to such risks.

Proprietary transactions

To the extent permitted by law, VP Bank Ltd, its subsidiaries and the governing bodies and employees of VP Bank Ltd and its subsidiaries may participate in other financial transactions with the issuers of equity securities mentioned in the equity analyses. They may invest in these issuers or render services to them, acquire orders from them, hold positions in their assets or in options on those assets, carry out transactions in these positions, or have other substantial interests relating to the issuers of assets mentioned in the equity analyses. Such actions or situations may already have occurred in the past.
